All fields are mandatory and must be completed to finish the registration process.

The selection of the **language** is particularly important, as it defines the **organization language**. It determines the language used for default texts in calculations, offers, invoices, and other [documents](#). Changing the organization's language afterwards is only possible via the support team. The user interface language, however, can be customized individually by each user.

After completing the form, click **“Register”** to finish the process.

You will then be redirected to a **confirmation page**, where you will find a link to the **login page**. Use this link to log in with your newly created credentials, and you will then automatically be taken to the [setup page](#) to configure your organization.
